WORK EXPERIENCE

Graphical Designer & Multimedia Specialists

2023 - Present

Kaposda I Kabete National Polytechnic

In my role at Kaposda, I have the privilege of designing posters, websites, and videos to support the church's initiatives and events within the Kabete National Polytechnic community. I bring creativity and innovation to each project, crafting visually engaging assets that effectively communicate the church's message and engage the target audience. My multimedia expertise extends to video editing and animation, enabling me to produce dynamic content that captivates and inspires viewers.

Freelance Graphic and Website Designer

2019 - Present

Self- Employed I Freelancer

As a freelance designer, I have honed my skills in both graphic and website design, catering to a diverse range of clients and industries. I excel in understanding client needs and translating them into visually compelling designs that exceed expectations. From logo design to website development, I offer comprehensive design solutions that elevate brands and enhance online presence.

Freelance Graphic and Website Designer

2022 - 2022

Upwork I Remote

As a freelancer on Upwork, I collaborated with clients from around the globe, delivering high-quality graphic design and website development services. I managed multiple projects simultaneously, ensuring timely delivery and client satisfaction. My ability to adapt to different project requirements and communicate effectively with clients allowed me to build strong relationships and establish a reputation for reliability and creativity on the platform.

Website Developer

2019 - 2020

Oloma Kosamo Sacco I Homabay

During my tenure at Oloma Kosamo Sacco, I led the development and maintenance of the organization's website. I worked closely with stakeholders to understand their requirements and implemented solutions to enhance user experience and functionality. By leveraging my expertise in HTML, CSS, and WordPress, I optimized the website for performance and accessibility, contributing to increased member engagement and online visibility for the Sacco.
